v. 221027

Summary

- 🚩 Experienced Webmaster with a demonstrated history of working in the higher education industry.
- 🚩 Skilled in Analytical Skills, Programming, UI/UX Structures, Bug Resolve, Digital Marketing, Web Project Management, Servers and Optimizations.
- 🚩 Many years experienced in PHP, Javascript, Css, Html, nginx, apache, node, mysql, linux, and was involved in some projects that are based on vue, react, angular, nextjs, liquid, laravel, cordova.
- 📄 Strong engineering professional with a Master's degree focused on physics (Carbon Nanotubes and high computing computer simulations) from Yıldız Teknik Üniversitesi.
- 📄 Programmed a simulation on linux (Python, C, Fortran90, Mathematica) to measure the electrical changes that occur when carbon atoms begin to detach from the carbon nano tubes under high pressure / voltage / temperature.
- ◆ Hungry for research and studying on new things, mostly reads about sociology, philosophy and science, very interested in blockchain and artificial intelligence.
- ◆ Likes to focus on details, plans all the things in advance, enjoys thinking differently, dislikes rushing on business, loves to spend time with his wife, daughter and pets.
